Trout In The Classroom

Name: _____

Date:

Period:

The organization that is providing the eggs for our trout tank is called ***Trout in the Classroom***. They ask classrooms around Massachusetts to raise trout to be released into open waters. Today we are going to do an investigation to find out more about the organization and about trout in Medfield and the surrounding area. You will do an internet investigation to seek out the answers to the questions below. Use the following website to begin with...

1. <http://www.troutintheclassroom.org/home>
2. <http://www.mass.gov/eea/agencies/dfg/dfw/hunting-fishing-wildlife-watching/>
3. http://www.fws.gov/northeast/fisheries/pdf/EBTJV_Conservation_Strategy_July08.pdf

1. a. What types of trout are found in Massachusetts?

b. Do trout have difficulty surviving in Massachusetts? If so, which types and why?

c. Why does *Trout in the Classroom* look for classrooms that can raise trout? What is its mission?
2. Are trout found in Medfield? If so, what bodies of water are they found in.

What types are found here?

Do they have trouble surviving? If so, why?
